

SUBPROJECTS PAGUS PARTNERS SUMMARY

Document to be filled by local partners

Name of local partner. City	Município de Guimarães
Body	Município de Guimarães
Region	North
Subproject name	Qualifying Technicians to Manage the Urban Rehabilitation
Acronym/(Ex. 4B) and Component	A Component 2
Budget before reduction	80.000,00€
Current budget	65.300,00€
Work team	Alexandra Gesta, Ricardo Rodrigues, Dário Silva, Gabriella Casella, Catarina Providência.

Local partner productions in each Subproject. Ex. Participation Web site, Interpretative movie, Sociological Study, Radio Program. Foreseen and accomplished actions.

The primary planned action it was the creation of a Qualifying School for Urban Rehabilitation in Historic Center with destinataries are, in short, professional technicians, specialized enterprises and public managers. In this sub-project, in particular, the destinataries were the professional technicians. The related action it was fully carried through. The complementary action with more visibility in the creation of the School, it was the building of a blog where we can see all the planned lessons and the respective photos. (<http://pagusguimaraes.blogspot.com/>).

Achieved results: Ex. Knowledge of the morphology of Baeza city in the Renaissance in order to obtain citizen heritage awareness. Citizen participation in Allariz in municipal initiatives.

The proposal goals were totally reached, allowing to achieve an acquisition and an exchange of knowledge between professional technicians and the formation teachers and between partners.

Foreseen Effects. Ex. People awareness of the heritage and positive repercussion in the conservation of the historic city.

The city of Guimarães, and mostly the residents and users of Historic Centers, benefited with this action of project PAGUS, because this action had allowed to reformulate the actual paradigm of the sustainable urban development in Historic Centers.

Dissemination activities (As publications, CD ROMs, Brochures, Webs, etc)

- * Criation of a blog;
- * Publicitarities brochures and Exposers (roll-up) distributed in strategic points of Guimaraes city;
- * Criation of a CD/DVD with all the lessons (this information is being treated in present date).

Continuity expectations

We hope that this School it last in the future and that this platform of exchange knowledge, information, technics, pratics and experiences proceed in the future, in a way to promote intlectual dialogue, relations between partners and to improve the life in Historic Centers.

Link up with the transversal European policies: Gender, environment, sustainable policy, etc.

The program INTERREG III C it aims to improve the effectiveness of regional policies. So, it seems logical and imperative that exist an exchange of experiences and informations, in a way to promote the good relationship between the different regions.

The project PAGUS and his sub-projects cleared assume those transversal lines for his own strategic orientation.

Others data that could illustrate the partner activities as: Number of hours of work, description of technical and administrative visits, beneficiary of new devices and any others remarks that the partner consider necessary to phrase.

The lessons had occurred in 14 days, 2 lessons by month. There were 31 enrolled students, but those were divided for the actions of the component 2A, 2B and 2C, just like the teachers/orators (33).
